

CANTI design Pekka Toivola

The design of the Canti desk focuses on the finish, details and variety of material options. A great desk design with function and style in perfect harmony. It has excellent usability: storage space integrated in the desktop and power outlets that are easy to reach but can be neatly concealed if needed.

Canti's style is the product of unique design, complemented with materials such as bleached ash and linoleum. Its innovative leg structure is electrically controlled with a nearly silent mechanism. It makes Canti also suitable for open workspaces where quietness is especially important.

Pekka Toivola

Pekka Toivola was born in 1955, and he graduated as industrial designer from the University of Art and Design in 1980.
